Brereton Farr

AV Training & Multimedia Specialist | Lead Videographer
Fairfax, VA · 703.517.9805 · brereton.farr@gmail.com · Public Trust (Active)

Professional Summary

Lead videographer and multimedia specialist with 11+ years making training, outreach, and public-facing media for federal agencies, contractors, and corporate clients. Owns the job from outline through studio or field production, edit, motion graphics, captions, and delivery. Works with instructional designers on eLearning in Adobe Creative Cloud, Camtasia, DaVinci Resolve, Articulate 360, and Rise 360, and vets new cameras, workflows, and AI tools against cost, quality, and what the shop already runs.

Core Competencies

Production Studio and field videography; lighting and sound; teleprompter; green screen; scriptwriting; storyboarding; photography; live streaming and event switching; music; QC

Post Nonlinear editing; 2D motion graphics and animation; color; dialogue cleanup and narration; media management; ProRes and H.265; transcription and captioning; Section 508

Training / eLearning Instructional media with IDs and SMEs; Articulate 360; Rise 360; Captivate; Camtasia; 360° imagery for interactive learning

Tools Sony, Canon, Nikon, Arri, AJA CION, Panasonic, and Blackmagic camera kits (digital and film); Premiere Pro, After Effects, Photoshop, Illustrator, InDesign, Lightroom, Firefly; Camtasia; DaVinci Resolve; Word, Excel, PowerPoint

AI Firefly, Premiere Pro AI features, Claude, Copilot, Gemini, ElevenLabs — used for speed, then checked like any other source

Collaboration Federal and client-facing communication; mentoring junior staff; Agile sprints, backlogs, and stand-ups; recommending gear and software off need, inventory, interoperability, and cost

Professional Experience

Video Producer / Editor & Multimedia Specialist Aug 2023 – Present

Tipping Point Solutions · Merrifield, VA · supporting USDOT / FMCSA / NTC

- Lead videographer for federal transportation safety training and outreach. Plans, shoots, edits, and finishes the motion graphics and graphic package, then hands over a deliverable the customer can actually use.
- Cuts training and promotional work in Premiere Pro, After Effects, Photoshop, Camtasia, and DaVinci Resolve — scripts, boards, lighting, green screen, animation, color, music, and audio finish included.
- Builds eLearning-ready modules with instructional designers and SMEs in Articulate 360, Rise 360, and Captivate, including 360° instructional stills.
- Shoots interviews, instruction, and public-facing pieces in studio and on location (teleprompter, lighting, sound). Still photography for events and campaigns. Live-stream and event support as camera op and switcher.
- Makes the 2D motion and print-adjacent graphics — infographics, posters, brochures, decks — in After Effects, Photoshop, Illustrator, and InDesign. Owns the media library after the shoot and the handoff to stakeholders.
- QC before release: Section 508 and accessibility, transcripts, captions (including automated captioning, then a real pass), compression, and metadata. Fixes what does not clear.
- Mentors junior producers and editors on how this shop shoots and finishes. Raises problems early with federal partners instead of surprising them at delivery. Plans the queue in sprints, backlogs, and stand-ups.
- Researches cameras, software, and expendables against current inventory and what has to talk to what. Same standard for AI in the pipeline (Firefly, Premiere AI features, Claude, Copilot, Gemini, ElevenLabs).

Video Producer / Editor · Independent Contractor May 2018 – Aug 2023

Fairfax, VA · federal proposal and corporate communications work

- Ran proposal and corporate jobs start to finish: concept, script, boards, shoot, edit, grade, motion, delivery.
- Made video for FEDSIM and DoD pursuits in the $500M–$4B range. Built green-screen, motion, and grade templates so the next job did not start from zero.
- Training simulations, broadcast graphics, infographics, and event coverage. On large events, also the camera op, sound mixer, and live graphics operator.
- Sony, Canon, Nikon, and Blackmagic kits. Kept the libraries clean and delivered ProRes and H.265 when that was the spec.

Education, Awards & Clearance

B.A. Cinematography · Virginia Commonwealth University, School of the Arts, Richmond, VA

Minors in English and Sociology. Twenty-plus short productions across directing, producing, editing, camera, audio, and logistics, including permits on government and private locations.

Award. Contributor to a multi-award-winning USDOT podcast series.

Clearance. Public Trust, active. DC Metro; available hybrid / on-site in Bethesda.
